

National Aeronautics and Space Administration

# NASA TECHNOLOGY

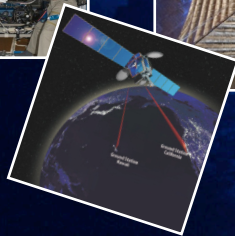

**Imagine. Innovate. Explore.**

Join us to learn how NASA technology improves the quality of life for people here on Earth and brings new solutions to everyday challenges. Investments in space technology stimulate the economy and contribute to the Nation's global competitiveness through the creation of new products and services and new business and industries.

**Meet NASA Astronauts  
Michael Massimino and  
Michael Good and hear about  
their missions to space.**

**Wednesday, March 28, 2012  
3:00 – 7:00 p.m.  
Rayburn House Office Building  
The Gold Room #2168**
